

WOW..WOW...WHAT A STUNNER!!!

This absolutely gorgeous boy is Blade. Blade came in to the rescue as his owner can no longer care for him and believe it or believe it not this big guy is only 10 months old!!

He has a fabulous temperament but is in serious need of some correct and consistent training now so he will grow into one beautiful dog.

He is currently in foster with 5 other sheps and a JR who he seems fine with but through his lack of training and always wanting to thrust himself right to the front have not run them all together outside. They do however spend evenings together in the house under close supervision. He has met the cats and really really does not like them, he fixes his stare on them in a very unhealthy way so its a no on the cat front! He has seen horses at close range, he shows great interest as he does with everything, which will all improve with training. He is great with all the people he has met and also with children...very friendly boy.

Blade is looking for an active mum and dad to spend time with him teaching him some social skills and training. He is a blank canvas now needing some correct input to develop in the right way.

Please do not enquire about this young man if you are either a first time GSD owner or you have not been home checked. We are looking for a special home for a very special boy.
