

PUPPIES...PUPPIES....PUPPIES.....

An update on the puppies rescued in the nick of time by GSDR...

All puppies have now found new homes 6 weeks after being rescued from near death by GSDR after the RSPCA left them to fend for themselves at 8 weeks old....

I am sure you have read the story of how they came to be with us.....well here they are now..... Get ready.....

Puppies are gorgeous but please don't forget that every poor

dog up for adoption on this web site started life as one of these little cuddle monsters and was somebody's baby, but when the newness wares off and they grow up they get thrown aside like rubbish.....just bear that in mind when looking to give a rescue dog a home, a wish list is not required and will not be tolerated.....all our dogs are special especially to us!
